Oh snap! Remember, the lyrics to Fox are on a singing bee singing show. Winner? So far, Bee's going to take it. Love Wayne Brady, Love the Who Wants to Be a Millionaire drama, but somehow prefers quick action bee (and dancers dressed as bees. Did I mention that the dancers were dressed as bees?). It also lacks the kic factor on Lyrics, which is deliciously cheesy. But the lyrics are fun - the first contestant, Katie, went for \$1 million (seriously, people, rocket scientists and brain surgeons don't earn as much money) who chose from a list of genre songs and then chose a song to sing. Which one would you choose, if you had to, between Walking like an Egyptian and we're a family? Katie chose an Egyptian woman and knew the extraordinary amount of text she was left with on her devices. I like bangle, but I'd hardly bite him. She was wearing high boots and a shimmering headband, so it's probably pretty cool. There are probably two kinds of people: those who thrive in abundance (will they get it? Is she going to leave with nothing? What is this tape made of?) and those who like immediate smd, such on the Bee. The latter, like me, could probably benefit some Focus Factor. Katie will buy a microscope and an ant farm if she gets the money, because she's an entomologist who's a person who specializes in insects. Whoever said there's nothing good to watch in the summer, they just don't think outside the box. On America's Got Talent, the judges sent over their favorite Vegas men, who included Bollywood dancer Kashif, who sneered his heart across the stage and into the court's hearts. Sharon finds the culture fascinating and so she had to have more and more of him. A girl playing a guitar that's dead for a very young Jodie Foster has won a place when God blesses an America that played in the background. Could AGT actually be on top of an emotional mention of British Got Talent, whose teenage baton twirler, who upset the audience and whose winner, Paul the opera singer, has warmed hearts around the world? It's entirely possible how things happen. What about Sharon Osbourne and Hoff at the helm, i guess. Stay tuned. - Amy DiLuna Who are you rooting for? Discuss in the comments! More information about this and similar content you may find on the piano.io Often dour nature of the blues, with its focus on realism and search for authenticity, does not always make for happy holiday music. As such, blues music as a genre doesn't usually be redeemed as often (or as boldly) as country music or early rock 'n' roll artists. However, there are a number of fine Christmas collections for those who enjoy the blues of Christmas, and the following albums are among the best among the blues, which provide little seasonal joy, even in a blues context. Matt Image Entertainment/Getty Images This 1992 cd from Alligator Records has little to do with each sene of blues. The contributing artists include legends such as Charlie Musselwhite, Lonnie Brooks and Son Seals, as well as relative young 'uns such as Kenny Neal, Tinsley Ellis and William Clarke. 14 festive track, and you didn't live until you heard Koko Taylor belt out a merry, merry Christmas. A more modern collection of holiday tunes than most of these compilations includes performances by the solid musical citizens of Austin, Texas. The album includes blues, roots-rock and Americana artists such as The Fabulous Thunderbirds (Merry Christmas Darling and Winter Wonderland) and Lou Ann Barton (Rockin' Around The Christmas Tree and Please Come Home For Christmas), as well as Charlie Sexton and Angela Strehli, who headlined Willie Nelson's classic on Blue Christmas. This 2003 collection is actually budget at the price you'll re-sell on A Christmas Celebration Of Hope 2001 B.B. King, so if you have one, don't rejuvenate for it, no matter the price of the discount. Anyway, it's a decent collection of Christmas blues tunes from the king's blues guitar, with excellent chestnut performances such as Merry Christmas, Baby and I'll Be Home For Christmas as well as the new King composition, spry instrumental Christmas Love. This cheap entry in Universal's 20th Century Masters series includes the often anthologised songs by Koko Taylor (Merry, Merry Christmas) and Charles Brown (Please Come Home For Christmas) alongside harder-to-find holiday tunes such as Santa Sonny Boy Williamson, as well as tracks by William Clark, Eddie Campbell and Jimmy McCracklin. A dozen songs at a budget price; still, if you found a copy of Blue Yule (listed below), I would choose to do so instead. It's probably the hippest blues-oriented Christmas album you'll find, including rare tracks from legends such as Lightnin' Hopkins (Happy New Year) and John Lee Hooker (Blues For Christmas), as well as the usual mental holiday from people like Charles Brown, Jimmy McCracklin and Eddie Campbell. In addition, artists such as Canned Heat, Roy Milton, Detroit Junior and Louis Jordan (his last shot from 1968 Santa Claus, Santa Claus) don't appear on holiday compilations all of this often. America's favorite boogie-rock kings, The Canned Heat, recorded their first Christmas song with the new chipmunks back in 1968. The Christmas boogie has got a bit of airplay back in the day and is back here, along with yet another classic Canned Heat feast jewel, Christmas blues. This is included here in the original version, along with a more recent performance with dr. John and a third with guitarist Eric Clapton and blues harpist John Popper. The rest is pure boogie and a burn with the happiest holiday intentions. Alligator Records was in its late 80s. attract new fans to the blues, but this CD from 2003 celebrates the holidays with a diverse sixteen songs collection of blues, soul and zydeco music (including many new songs). Among the performers who bring musical cheer are the ever-reliable Koko Taylor, Alligator label mainstay Lonnie Brooks, phenomenal singers Marcia Ball and Shemekia Copeland, as well as guitarists Coco Montoya and Michael Burks. Roomful of Blues raises an important question: Santa, did you ever get blues? A solid collection of bluesy holiday tunes, led by Charles Brown standard Please Come Home For Christmas and including performances by Lightnin' Hopkins (Christmas Blues), Big Joe Williams (Christmas Blues), Lowell Fulson, Big Joe Turner and Johnny Winter. Some duplication with other Christmas compliments, but you can't be made a point with four Charles Brown songs. You can't get any hipper for the holidays like this red-hot collection, which includes a unique christmas blues series by Mark Hummel (Thank You, Santa Claus) and Willie Big Eyes Smith (One Day Until Christmas), as well as Snooky Pryor, Alabama Red, Curley Bridges and Chris Whitley, among others. Call it blues if you like, but it's a joyous collection of holiday music by talented people like Duke Robillard (Dukes Christmas), Billy Boy Arnold (Christmas Time), Jimmy Witherspoon (with Robillard in Christmas blues), Roscoe Gordon, Big Dave McLean and Long John Baldry. 14 tunes in blues, souls, roots and country rehearsals guaranteed to brighten your Christmas morning. There are few bands or bands that take a test of time, especially those that formed in the 2000s. From Fifth Harmony to One Direction, both boy and girl bands don't really last long. Unless you're talking about Little Mix. The British girl band won the British X-Factor in 2011 and was the first female band to ever do so on the British version of the show. They've been banging since, but they're not that big in America. To really convince you why Little Mix should be a hit, here are seven videos to see. It's also a good introduction to them if you haven't heard their music. Benett/Dave Benett/Getty Images 1. Wasabi Like many songs these days, Wasabi saw some popularity last summer on Tik Toku, but this song is not a reason to have this song on your radar. It's such a bop, with multiple levels of song. It has rhythmic, staccato verses and then a more fluid, sensual chorus. This is a song that is great for work, dancing or a super hype-up song. As one of the best comments said: 'Every time I listen to Little Mix I become a fucking sassy confident queen, then the song ends and I come back as a little potato:)' 2. Black Magic One of Little Mix's first hits and songs in general, Magic tells a fantastic story about wanting to use a love potion on a boy to finally spot you. Although, of course, it's just a fantasy, the video is so worth it. Four members play these kinds of nerdy or awkward girls who are very much in love with this guy. They grab a magic book and start sabotaging the stingy girl and helping other less popular kids in their school. It's fun and it really meant their huge start. 3. Love Me Like You Retro-inspiring song, Love Me Like You will remind you of the jam of the 1950s. It slower and perfectly emphasizes their voices. He also has that great concept of 50s about sing-and-how for a guy who's obviously one-a-a-friendly. However, a video from 2015 shows that some of the boys may be too good to be good. No matter how you take its meaning, it's a fun song that will get you into a happy, bright mood. 4. Think About Us ft. Ty Dolla \$ign Think About Us is basically about being so into someone that when you think about them (which is great) you can't help that you don't wonder or hope to do the same. Whether it's at the beginning of a relationship or near the end, it's definitely a concern or whether he thought someone might have it. The song itself is also a really, really good vibe. A beat can be for dancing or just a nice beat of background when you need it. 5. Woman Like Me ft. Nicki Minaj Little Mix has always had a stingy or sometimes too much message about empowerment. A woman like me, one of their newer songs, basically says they're strong, outspoken and sometimes they don't behave the way they're supposed to be a proper woman. But they like the boy and they wonder if they can handle them? It's also Nicki Minaj and it's such a good song that you'll feel strong. 6. Reggaetón Lento CNCO duet Originally, Reggaeton Lento was completely in Spanish, as he was a singam of the Latin American boy group CNCO. Little Mix jumped on the remix, and it's such a good song. It's definitely a different style of music that they usually do, but they do it perfectly. There are still parts in Spanish, and it's perfect for dancing. 7. Shout Out to My Ex Okay, it's time to ampmlle it with one of Little Mix's best and greatest songs. It's the ultimate song about divorce. It's not disparagement from the ex, but instead it's that girls. They thank their exes for being who they are now, to teach them a lesson, and now to learn from their lives. Honestly, it's like Thank you U, Next, but obviously years earlier. She is also known for Zayne Malick, allegedly who broke up with Little Mix member Perrie Edwards over a text message. It's the perfect song to shout at lyrics even though you don't have exes.
